### AFTER THE DISASTER

The emotions following a disaster can be devastating. It is crucial for the safety of your family to remain calm, listen for and then follow official instructions.

- ◆ Follow plan for the specific disaster or emergency and treat injuries
- ◆ Listen to news reports for information and instruction
- ◆ Assess condition of the house using a flashlight, NOT an open flame
- ◆ Do not enter an unsafe structure
- ◆ Smell for gas leaks, starting at the water heater
- ◆ Shut off any damaged utilities
- ◆ Clean up any hazardous or flammable spills
- ◆ Notify local and out-of-town contacts if possible, then only use the phone to report life-threatening emergencies
