AAA7 and Shawnee State University
OT Program to Provide Community Education

The Area Agency on Aging District 7 (AAA7) and the Shawnee State University Occupational Therapy (OT) Program are joining together to provide community education through a series of in-person presentations set for select locations throughout the AAA7's ten-county district.

Historically, the two organizations have worked together to provide community education through the AAA7's "Matter of Balance" falls prevention program and livestreams through the AAA7's Facebook page.

This upcoming series will focus on the benefits of Occupational Therapy, low impact exercises that can improve strength and mobility, as well as further education on community resources that can help individuals stay in their home and community. The presentation will be conducted by graduate students in the Occupational Therapy Program at Shawnee State University. It's a wonderful way to support students in their education as well as provide the community with important and beneficial information that can support their health and well-being.

A session is scheduled in Pike County at the Pike County Senior Center, located at 402 Clough Street in Waverly, on Thursday, March 20th at 12:30 pm. Everyone is welcome to attend. To RSVP, please call the Area Agency on Aging District 7 at 1-800-582-7277 or email info@aaa7.org.
