PASSPORT

Home and Community-Based Services Medicaid Waiver

The **PASSPORT Medicaid Waiver Program** provides in-home services designed to help seniors who are at risk of nursing facility placement to live safely at home.

Participants meet with a nurse or social worker to develop a service plan to meet their needs at home or at the home of a family member or friend. Services complement the care and assistance provided by family and friends and can be adjusted as needs change. Services are provided through home care agencies contracted with AAA7 or consumer-directed providers. Assistance is also available to help current nursing facility residents transition back home.

Consumers in the PASSPORT Program have the choice of either the traditional option where services are provided through agency or non-agency professional caregivers, or the consumer-directed option, where services are provided by individual providers such as friends, neighbors or some relatives (spouses, parents, step-parents and legal guardians are ineligible). In the consumer-directed option, the consumer is the “employer of record” for individual providers and is responsible for hiring, firing, training, and completing all necessary tax forms and payroll duties for these workers. A Fiscal Management Service is provided to assist the consumer with the legal and financial aspects of the program. Staff at the AAA7 help consumers understand their options through the PASSPORT Program so that they can make the best decision that will support their health and independence.
