

## PART 3 - 2023-2026 STRATEGIC AREA PLAN GOALS TEMPLATE

### Introduction

This portion of the Strategic Area Plan serves to capture your area agency on aging (AAA) strategic goals, objectives, and strategies for the 2023-2026 Area Plan cycle. In addition, this template captures the action steps for implementing such strategies and the measures to demonstrate that strategies have been completed.

Information that may assist in completion of this template is listed below:

- This template is structured around the conceptual framework of the Strategic Action Plan on Aging (SAPA), which will serve as the foundation for the new 2023-2026 State Plan;
  - The six SAPA “topic areas” are now the “focus areas” within this template (community conditions, healthy living, access to care, social connectedness, population health, and preserving independence);
  - The fifteen SAPA “issues” and associated “outcomes” are now the “objectives” within this template;
  - The SAPA “strategies” are the same “strategies” listed as a drop-down menu within this template;
- Goal statements written for each focus area should be SMART (specific, measurable, achievable, realistic, and time-bound);
- Priority populations within this template are those identified in the SAPA as being most at risk for poor outcomes, as well as those identified as priority populations in the Older Americans Act;
- Action steps should include specifics about how your AAA will implement or accomplish the strategies, including a description of the programs or services you will implement, frequency, location, responsible parties, communication of progress or results; and
- If additional rows within the template are needed because your AAA would like to prioritize more than 3 strategies for each objective, please contact Morgan Fitzgerald at [mfitzgerald@age.ohio.gov](mailto:mfitzgerald@age.ohio.gov) to have the template modified.

## Focus Area 1: Community Conditions

**Target Date**

**Goal statement:** Increase our involvement in the county-level coordinated transportation plans, advocating for the needs of older adults.

12/31/2026

**Plan for measuring overall goal success – How will you know that you have achieved the results you want?**

- 1) When older adults are specifically included in the plans. 2) When we are asked to write letters of support for new vehicles. 3) When success is achieved in at least one county to improve the transportation network.

The program's main function is to provide telephone reassurance for those who would like to chat with someone over the telephone for company and conversation. Interested individuals or referrals to the program can be made through the Agency's Resource Center. Phone calls are made to individuals on a weekly basis for a little chat and, if needed, to help determine resources in the community that are available to help with any individual needs that may be present. ### Focus Area 7: Additional ACL Priorities

The following are additional priority areas identified by ACL that are required to be addressed in each new State Plan. AAAs are not required to set goals or report on evidence of completion for these priorities. However, ODA requests AAAs provide a brief description of any local efforts or activities supporting these priorities in their regions. This information will be used to identify trends and current local practices in order to inform the narrative of Ohio's new State Plan. If no efforts are being performed in your PSA for a specific priority listed below, please write "N/A" or "Not Applicable".
