

## **Corona Balona**

A terrible bane is upon us.

It's spreading throughout the land.

They're telling me things that I must do,

And truly I understand

I see on TV politicians,

And those who pretend to be smart

They're spreading corona balona

And tearing our country apart,

I listen to nurses and doctors,

And do what's expected of me

I'm learning to live with corona,

But balona is killing me!!!
